(Correspondance)

Port of Spain, Trinidad. Nov. 4th 1912 - This is a good picture - Sometimes they have fig bananas, about the size of a finger. We are going on to-morrow by the S.S. Trent to Colon, but if it is much hotter there than it is here to-day there will be only a small drop of water left of me. All is strange and curious even the food. We had collaton soup, tania, a vegatable, christophine another. J.S.F.
