CARNIVAL SCENES IN TRINIDAD

Hilarity Marks Closing Day

TRINIDAD'S 1947 Carnival is now gone down into history, but it can be said that it was a great success, and that it ended in a typical atmosphere of hilarity. The Colony really 'came to town' for the occasion of the two days of gay festivities, which amazed strangers who had come from the other West Indian islands and parts of South America to witness it.

The Port-of-Spain proceedings opened in Port-of-Spain by the Mayor, was a mere affair compared with yesterday's finale, when revellers from far and near, danced through

Miss Angela Leotaud, Mrs. Bab... Mr. McBarnett, Mr. Ch... Chief Alcalde, Mr. Geo. Crowd... Miss Audrey Arthur. The Mayor and Mayoress were also present.

The Patrons were Mr. and Mrs. Churchill Jaggernath, Mr. Partab...

CARIBBEAN COMMISSION

Deputy Secretary Due Today

According to an announcement made by Mr. L. O. Duvert, Secretary-General of the Caribbean Commission, Governor Mr. T. L. M. Macdonald, Deputy Secretary General of the Commission, is expected to arrive in Trinidad today by B.W. Colombie.

Prior to Trinidad, Mr. Francis Clinton Macdonald, Deputy Secretary-General of the Caribbean Commission, was appointed on the behalf of Professor Rosenstein, Professor of Paris, and

ADMIRAL DISCOVERS UNKNOWN LANDS

NEW YORK, Feb. 18.—Admiral Richard Evelyn Byrd, leader of the United States Navy expedition to the South Pole, flying over the Pole on Sunday discovered and photographed 75,000 square miles of territory never before seen by man, and saw also 32 new mountains, National Geographic Company of America announced with the expedition reported today.

Admiral Byrd with two of his aircraft, flew 11 miles beyond the south Pole, the planes covering each other in a "leap frog" over the Pole, the expedition said.

Out of the 32 mountains discovered, three exceeded thousands of feet in height, and the rest were each thousands of feet in height. Mountains were brought.

After his flight, Admiral Byrd reported that there was no land in the space to east of the Pole.
