Combining Mixed Methods Designs: Follow-Up and Within Stage Models

Inaugural Mixed Methods International Research Association Regional Conference in the Caribbean: Mixed Methods in Multidisciplinary Research
UWI, Mona, Jamaica

by

Debra Ferdinand, PhD

March 13, 2015
Problem Statement

➢ Summary:

- Teacher cultural competence deficit
- U.S-centric HE curriculum
- Theory ahead of practice
- Course/program instruments not modified
Significance and Purpose of Study

➢ Summary:
  - Relevance to University’s diversity thrust
  - Fill gap in existing body of knowledge
  - Examine students’ perceptions on WED curriculum responsiveness:
    ✓ teaching strategies,
    ✓ curriculum inclusiveness,
    ✓ international responsiveness, and
    ✓ curriculum improvements
Research Questions

➢ To what extent (descriptive)

1. are WED teaching strategies (to include delivery) responsive to culturally and internationally diverse graduate students?

2. does WED graduate curriculum content reflect the cultural plurality of the U.S. society?

3. does WED graduate curriculum content give international perspectives (to include developing countries) on course topics?
4. What improvements, if any, can be made to WED curriculum responsiveness in facilitating culturally and internationally diverse graduate students?

5. In what ways do the qualitative data help to explain the quantitative results?
Philosophical Foundation

➤ Pragmatism:

- Overarching paradigm for mixed methods
- Focus on cultural values and finds practical solutions to problems
- Considers consequences of research
- Views theory as instrumental or tentative
- Pluralism results in a superior product
Defending Philosophical Foundation

- Not testing of theories or hypotheses (Post-positivist)
- Not generating theory from data collected (Constructivism)
- Not advocating for a marginalized group (Advocacy/Participatory)
- Pragmatic approach used for understanding research problem
Methods and Procedures: Research Design

1. QUAN data collection
2. QUAN data analysis
3. QUAN results
4. Identify follow-up results
5. qual data collection
6. qual data analysis
7. qual results
8. Interpret QUAN qual

Defending Mixing Designs

- MM Follow-Up Explanations Model only allows quantitative data collection in Step 1
- Instrument has both Quan and qual data
- Within-Stage allows for both open & closed questions in survey concurrently
- Pragmatism allows for flexibility in mixing MM designs
Methods and Procedures: Population

All Population Groups \((N=156)\) Surveyed

- U.S. Majority (Caucasian): 69\% (107)
- U.S. Minority:
  - African American: 24\% (38)
  - Asian American: 7\% (11)
- Hispanic: 7\% (4)
- International Students: 7\% (1)
- Unknown: 7\% (3)
Results: Demographics

Population Group Response (N=69 or 44%)

- U.S. Majority (Caucasian): 38% (41 people)
- U.S. Minority: 100% (17 people)
- International Students: 44% (15 people)
  - African American: 25% (15 people)
  - Asian American: 14% (1 person)
  - Unknown/Other: 11% (1 person)
Q1: To what extent are WED teaching strategies (TS) responsive to students?

<table>
<thead>
<tr>
<th>Most Used TS</th>
<th>Rank by All Groups</th>

</tbody>
</table>
Q1: To what extent are WED teaching strategies (TS) responsive to students?

- Spearman’s Rho correlation for most used and most responsive TS:
  - U.S. majority group – Weak negative ($r_s = -0.088$)
  - U.S. minority group – Weak positive ($r_s = 0.030$)
  - Majority vs minority group – Weak negative ($r_s = -0.122$)
  - International group – Weak negative ($r_s = -0.140$)
Q1: To what extent are WED teaching strategies (TS) responsive to students?

<table>
<thead>
<tr>
<th>WED Teaching Delivery Aspects</th>

<td>3.0</td>
</tr>
<tr>
<td>U.S. research preferred to int’l research by faculty</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Choice Ratings: Nearly Always - 5; Quite Often - 4; Sometimes - 3; Almost Never - 2; Don’t Know - 1 (approx 1 missing case overall)
Q4: What improvements, if any, can be made to WED curriculum responsiveness students?

<table>
<thead>
<tr>
<th>Sample of Suggestion Improvement Themes</th>
<th>Student Groups (n=46)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Majority n = 20</td>
</tr>
<tr>
<td>More diverse guest speakers /diverse content</td>
<td>✓</td>
</tr>
<tr>
<td>More diverse/int’l faculty recruitment</td>
<td>✓</td>
</tr>
<tr>
<td>More diverse faculty training</td>
<td>✓</td>
</tr>
<tr>
<td>More class discussion</td>
<td></td>
</tr>
<tr>
<td>Revisit int’l student participation</td>
<td></td>
</tr>
</tbody>
</table>

*Note.* Ticks only represent appearance of suggestion in sample and not total number of student group responding.
Survey Results Identified for follow-up in focus groups

- Survey Quantitative and Qualitative results:
  - More class discussion + revisit participation for int’ls
  - Group work as less responsive TS (ranked 2 & 6)
  - Cultural insensitivity (quite often) + diversity training
  - More diverse/int’l faculty to improve diverse curriculum
  - More int’l perspectives and guest speakers (not MR)
Q5: In what ways do the qual results explain the quan results?

- Focus group results:
  - Students learn from other students not only instructor
  - Few students contribute to group project (resented)
  - Cultural insensitivity appears as stereotyping, intimidation, and alienation
  - Diverse/int’l faculty TS motivating and maintain interests
  - Guest speakers bring diverse perspectives
Conclusions

- Students’ vivid descriptions give a realistic picture
- Results show theory as tentative
- Multiple perspectives shared by diverse students
- Mixing methods and models produce superior results
- Guest speakers bring diverse perspectives
Conclusions

Conclusions: Teaching Strategies and Content

- Disconnect in most used and most responsive TS
- Gap between theory and practice is narrowing
- Diversity initiatives applied appear to work
- Suggestions for improving TS and content consistent with literature
- Limitations to study conclusions
Recommendations

- Make evaluation instruments more diversity sensitive
- Convene multicultural task force to review WED content
- Include more Demo + Pract., class discussion, and review group projects for effectiveness
- Make faculty diversity training mandatory with incentives
Recommendations

- Study of TS responsiveness impact on student achievement
- Trace WED int’l graduates for far learning transfer
- Cultural/international diversity responsiveness for on-line courses
- WED international practices to include developing countries
- Name change from VE to WED on faculty motivation to pursue WED int’l research
