Pan Trinbago meets with Udecott

PAN TRINBAGO President Patrick Arnold yesterday met with officials of the Urban Development Corporation of Trinidad and Tobago (UDECOTT) at the Queen's Park Savannah for a feasibility study of the western area of the Grand Stand, with respect to hosting the

Panorama 2007 semi-finals there.

Arnold told *Newsday* he explained to the Udecott officials what they needed to have done including erecting bleachers along the east and west of the paved area of the Savannah.

However, he could not say how much patrons the bleachers

will hold since that still had to be worked out. Asked about any meeting in the pipeline with Culture and Gender Affairs Minister Joan Yuille-Williams and the National Carnival Commission (NCC), Arnold said, "I don't know when that will happen."

The NCC at present is without a chairman and vice-chairman and has not had the ear of Yuille-Williams for well over six months. But she was most notably present in the Senate yesterday continuing to keep away from making a definitive statement in public as to where the main Carnival show next year, will be held.
