T&T NEWS

Recently, law students at the university staged protest action against the relocation of the Faculty of Law to the South campus by January 2018, without consultation.

The statement issued by The UWI Marketing and Communications Office today, noted that in 2011, The UWI St Augustine Campus was allocated some 100 acres of land in Debe for its South Campus.

It said the expectation was and remains that the location would increase access to the underserved in our community, adding that access is a key element of the vision of the regional university.

The concept, according to the statement, involves creating an eco-system, between the St. Augustine Campus and its South Campus.
