## Amral's Cavaliers

CROWDS GO WILD wherever the Amral's Trinidad Cavaliers perform. As we see in the picture above, Cavaliers II has performed to standing ovations and encores in Canada and the United States during the past four years.

The Cavaliers tour, described as the most fantastic and ambitious ever undertaken by any steelband, includes East Africa, Pakistan, India, Malaysia and Europe. The following are extracts which illustrate the tremendous impact which this section of Amral's has created.
