SHE WENT WITH A PAN

FANS have taken to the church in a big way. Now the steelbands are much in demand at some church services.

On Sunday, members of the Texaco West Stars Steel Orchestra attended service at the St. Paul's Anglican Church, San Fernando — and

they took their pans along with them.

And they took a lady pan-beater with them, too. Above, she strums on two "guitar" pans during the service.

She is probably the first girl to "beat" pan in a church in Trinidad.
