

Pan, flags and chicks ...!

PANORAMA was the order at the weekend as the country's top steelbands began battling through the preliminaries of this year's national competition.

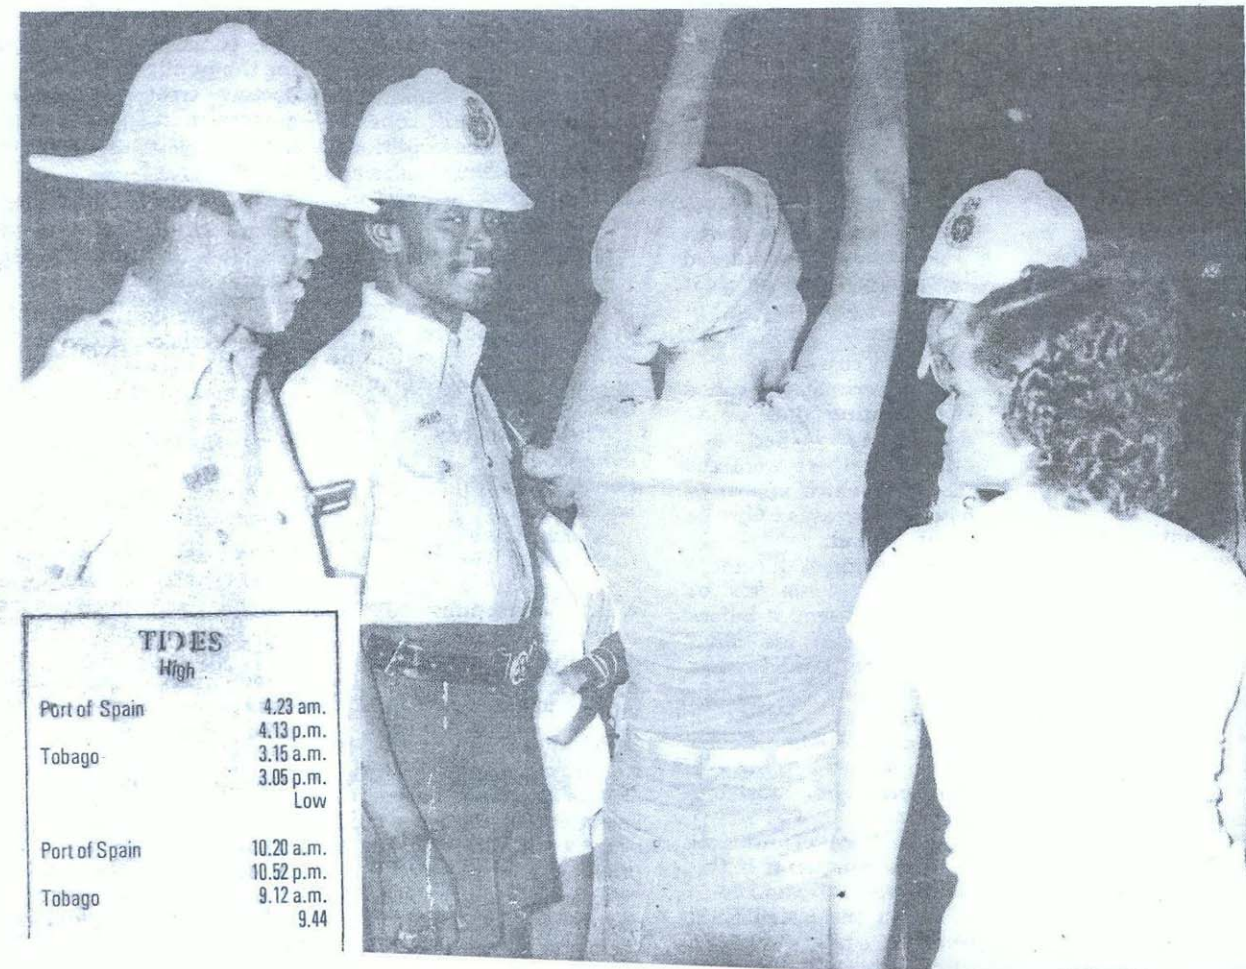

But what would be panorama without the lovelies to help brighten up the day... they were here, there everywhere...

Janelle "Penny" Commissiong [in top picture], Miss Universe '77, looking as lovely as ever, was caught by our cameraman chatting with a friend in the North Stand.

Then there was this banner-bearer, who just sent the Queen's Park Savannah crowd wild with her gyrations.

In bottom picture this policeman, hand on hip, digs this chick in action as she takes in the music.
