File - Setael ^{Trinidad}
Steelbands

THE Steelband — Trinidad and Tobago's contribution to the world of music in the 20th century — has come along a very rough road. Today it promises world-wide recognition as the 20th Century Symphony — The time of year that steelbands are caught in their true down-to-earth mood is Carnival, and their steelband Festival. In fact, like love is to marriage, the steelband is to Trinidad & Tobago.

Panorama is one of the most eagerly-looked-forward-to events in pan land. It offers the steelbands an opportunity to test their musical standards against one another, and to earn themselves handsome prizes in the exercise.
