

'Pan' Mask Men Praised

Mr. Albert Jones, president of the Trinidad and Tobago Steelbands Association, yesterday expressed satisfaction at the behaviour of steelbands during Carnival.

He said: "I am pleased with the way the men conducted themselves. We asked them to maintain discipline and they lived up to expectations.

"We hope they maintain this high standard and continue to win public respect.

Mr. Jones said generally the performance of steelbands was improving, and there were still more improvements to come, though at the moment almost any melody could be played by the steelband.
