

FOREWORD

The June 2002, Statistical Digest, like previous Education Statistical Digests is the output of an annual twelve-month process. This process begins with extensive data collection mainly via an annual questionnaire from all schools at all levels, Ministry departments, and the Government Statistics department. The next stage is data validation, which involves callbacks and re-entry of data in the questionnaire, data entry into a database, editing, processing and analysis.

This processed data is then compiled into a Statistical Digest document highlighting statistical information on various sub sectors including, Early Childhood, Primary, Secondary and Tertiary education, National Enrichment and Learning Program and National Skills Training Program. Some of that information is further analysed and presented as **education indicators**[?], and can be found throughout the Statistical Digest. However, highlighted on page xxv are the key education indicators as contained in the Education Sector Development (ESDP). These performance indicators are used as a guide to monitor the implementation of education reform in St. Lucia.

Ministry strongly advises on the use of the Statistical Digest for planning at all levels. Every effort has been made to provide a comprehensive statistical package as possible. Your suggestions for further improvements are welcomed.

OVERVIEW

Following is a synopsis of the June 2002, Statistical Digest.

Early Childhood Education

During the academic year 2001/02 there was a total of 153 Early Childhood Education Centres (ECEC), an increase of 9 schools over the last year. In spite of this increase, total enrolment for this sector decreased from 5682 to 5507, a 3% decrease from the previous year. Of these ECEC 40 were day care centers, 50% of which are government owned and the balance, privately owned. Day care centers, enrolment decreased from 1417 in 2000/01 to 1306 in 2001/02. The ratio of boys to girls remained at 1:1 and the care giver/child ratio reduced from 1:11 in 2000/01 to 1:10 in 2001/02.

Pre-schools enrolment also decreased from 4275 in 2000/01, to 4201 students in 2001/02. Both ratios, boy to girl and teacher/child, remained constant over last year, recording 1:1 and 1:12 respectively for pre-schools. It should also be noted that all pre-schools are privately owned. In 2001/02, 40% of these centers were located within the Castries region. In that year also, the number of pre-schools increased in four communities namely, Castries, Vieux-Fort, Micoud and Soufriere.

[?] Education Indicators are relevant statistics that contain useful information about the status or performance of a school, sub-sector or education system.

Primary Education

With the construction of one new primary school (Vigier Infant) and the merging the Grand Riviere Infant and Primary schools, the total number of primary schools remained unchanged at 82. Primary school enrolment has continued to decrease recording a total of 27955 students in 2001/02; a 2.3% decrease over last year. This decrease is in keeping with the decrease in population anticipated of that particular age group. The percentage of girls has remained constant at 48% over the last four years. In the academic year 2000/01, a total of 166 students requested transfers out of St. Lucia, (0.58% of the student population) and 211 dropped out (0.7% of the student population), a slight decrease over last year. Two thirds of these dropouts were males and the male dropout rate has remained higher than that of females. In 2000/01, approximately 88% of the total dropouts were from grades 8 and 9. This trend has also been observed in previous years from 1998/99. The repetition rate was 1.8% for 2000/01 and again male repetition rate has been higher than females over the past three years. The highest number of repeaters was recorded in District 1 followed by District 7 and then District 5.

In the current academic year there were 1062 teachers, 84% of which were females and a teacher/student ratio of 1:26. Only 12 primary schools meet the Ministry's target of a 1:30 teacher/student ratio. Seventy eight percent of the primary schools teaching force are trained. This represents a 6% increase over last year. The percentage of male trained teachers was 71% whilst that of female trained teachers was 79%. The total number of trained teachers was more or less evenly distributed among the eight districts, with district 2 recording the highest percentage of 86.

The current academic year, 2001/02, recorded that approximately 19% of the primary school students benefited from the ongoing schools feeding programme and 1.9% received bursaries from the Ministry of Education, Human Resource Development, Youth and Sports.

The results of the minimum standards examinations for both grades 2 and 4 showed that the mean for English language was higher than that for mathematics. Over the past three years, 2001 record the highest means in both subject areas. Of the 4508 students who wrote the common entrance examinations, 2482 or 55% were assigned to secondary schools. This represents a 1% increase from the last academic year.

Special Education

The total number of special education centres has remained at 5 with a combined enrolment of 233 students; 48% of which are girls. Of the total students, 14 are integrated within the school system and 14 others are visited at home. The highest enrolment is recorded by Dunnotars followed by the Vieux-Fort Special Education center. There are 41 teachers at the various schools and the teacher/student ratio of 1:6. Sixty three percent of these teachers are trained professionally whilst 51% are trained in at least one area of specialization.

Secondary Education

The number of secondary schools has remained at 18 over the past 3 years. However the total secondary enrolment has been increasing over the past 10 or more years, reaching a total of 12743 students in 2001/02 or a gross enrolment rate of 77%[?]. Of these, 57% were girls. Further, it should be noted that about 60% of our 12-17 year olds are currently enrolled at the public secondary schools. With plans well in place by the Ministry of Education to create more secondary school places, it is projected that by the year 2006/07, secondary school's gross enrolment will be approximately 16234 students or a gross enrolment rate of 97%. The secondary school dropout rate has increased from 1.2% in 1999/00 to 1.5% in 2000/01. This year also recorded a higher female dropout rate (1.6%) than male (1.3%). Approximately 73% of all secondary dropouts were from forms 4 and 5.

There are 710 teachers at the secondary schools, 64% of which are females. Fifty eight percent of the current secondary teaching force is trained. This represents a 1% increase from last year. The percentage of female trained teachers has been higher than male trained teachers over the past 4 years. In 2001/02 there were 61% female trained teachers and 54% male trained. The teaching force also records a total of 54% graduate teachers, with a higher percentage of female graduate teachers (58%) than males (48%). This trend is seen as far back as 1997/98. Teacher attrition rate was estimated at 7.2% in 2000/01, a 1.6% decrease over last year.

In 2001/02, 962 (8%) secondary school students received bursaries from the Ministry of Education.

Tertiary Education

The total enrolment at St. Lucia's two tertiary institutions was 1692 (excluding enrolment in the Department for Continuing Education of the Sir Arthur Lewis Community College). The percentage of female students has remained at 61% from the last academic year. Excluding the Department for Continuing Education, the division of Technical Education and Management Studies makes up the largest share of the total enrolment, followed by the division of Arts, Science and General studies.

National Enrichment and Learning Program

The new Adult Education program, now called the National Enrichment and Learning Program (NELP), was launched in October 2001. Courses are offered in two phases, *Phase one* - October to February and *Phase 2* - March to June. There are currently 8 centres distributed in five communities viz. Castries, Babonneau, Micoud, Soufriere and Vieux-Fort. Thus far, a total of 958 learners are enrolled in phase 2 of the program, 84% of which are females. A total of 527 learners have graduated from the first phase of the program, where a number of technical vocational courses were offered.

[?] The total number of 12 to 16 year olds is used to calculate gross enrolment rate. See technical notes.

Skills Training

The skills training program offered by the National Skills Development Centre (NSDC) began in February 2001 and offer both soft skills and technical vocational courses. There is one main skills training centre and 2 subcentres on the island. From February 2001 to February 2002 a total of 1058 persons have been trained in general education courses. A total of 213 persons have graduated from technical vocational courses and there are currently 81 trainees enrolled in various technical vocational courses.

Private Education

There are 7 private primary schools on the island with a total enrolment of 757, 87% of which are girls. There are total of 45 teachers with a teacher/student ratio of 1:17. Private secondary enrolment is 386, a decrease of 132 students over the past 3 years. These students are distributed in the 3 private secondary schools. The total number of teachers at the private secondary schools is 24 resulting in a teacher/student ratio of 1:16.

- Notes :
- Figures for 2001/02 are actuals
 - Kindergarten enrolment has been projected by assuming it to be equal to the estimated population of 5 year olds based on population projections prepared by the Government Department of Statistics.
 - Enrolment projections from Grade 1 to Grade 6 have been prepared with the help of the Flow Model Technique and a constant flow rate of 99% has been applied throughout the projection period for all grades.

Notes : Grade 7 enrolment is obtained by subtracting the form 1 intake from the projected grade 6 enrolment. Those senior students from district 6 who will be attending the technical vocational center in Vieux-Fort are further subtracted from the total. In 2002/03 the 401 students enrolled in grades 7 and 8 from district 6 are subtracted from the total. For the remaining years 2003 to 2006/07 the flow rates are applied (see below).
Flow Rate from Grade 7 to Grade 8 has been assumed to remain constant at 76% during projection period.
Flow Rate from Grade 8 to Grade 9 has been assumed to remain constant at an average of 43% during projection period.
