Address

My dear Leo.

British Production.

I am truly glad to hear of your happiness in having Pinkie up that side. I can quite understand how very busy you are making up for lost time. Le. I saw the largest flock of 'long legs' I have ever seen yesterday evening they must have been over one hundred I thought so much of this time last year "only a year ago" have you had any this time? I have seen a

letter to Ruby for you to read, tell me what you think, did I do right? I do not like folks thinking I have money & I have not a penny.

Do you like this card? it is the picture ambulance that went from here.

I want to coincide with Mr. Moore for the races.

Good love for all

Your sincere friend  
 E.
