mischievous for Mr. Simon to slander the panmen by saying they are adopting a "to hell with everybody" attitude, for panmen are more concerned about the people of Trinidad and Tobago more than Mr. Simon ever was, is or ever will be.

Panmen however, don't have to beg for any social acceptance since they have by right earned this through their hard work, blood and sweat, gaining overseas not only social acceptance for themselves alone, but for Trinidad and Tobago.

(5) The Bomb Competition is not cricket Mr. Simon, but panmen still regard the implements and the field, etc., as that of the people of Trinidad and Tobago, hence the reason for panmen playing the game in accordance with the rules as made by the people.

In conclusion I will like to point out to you Mr. Simon, that if it is anybody to give anybody not an ease, but a fat chance that anybody is Pete Simon, for panmen may not be able to carry forests on their backs, but they can certainly crack a nut. So move your foot and let the panmen pass and do their own thing, Pete.
