## Andy's in the Groove

BY HIS own admission, it was one of the greatest experiences in his life. He is American steelbandsman, Andy Narrel and although he is an accomplished musician and perhaps the best known panman in the U.S., Narrel came down to Trini-

dad to taste the real atmosphere. And he got his fill of it playing with not one but two steelbands, Phase 11 (in picture above) and Amoco Renegades. Wonder what the old Andy is going to make of this morning's "Jour Ouvert."
