The Blue Basin is a pool formed by the continuous action of a waterfall. The fall itself runs down a deeply grooved channel over which the trees have grown forming a natural roof, considerably adding to the attraction of the place. Large cedars and gum trees, acacias with crimson flowers and other tropical trees make the ravine a scene of great beauty.

How's Blanky?
Will this strike you at home? Got your card up at College and since then have been enjoying vacation for a few weeks. Got acquainted with one of your class-mates J. Darsow who is staying with our minister, and he & I manage to kill time some way. Believe you promised to write. Hope you don't forget. How about your room? I don't need Ted's Darsow don't know. What do you mean by "bunk" sleep? Hope you were always a pretty good sleeper. You were a sleeper. He is. Thanks. The end.
