

ACKNOWLEDGMENTS

**Metaphorical Motivation:
the Application of Orientational Metaphors
to the Comprehension and Recall of Phrasal Verbs
in Second Language Learning**

First, my sincere gratitude goes to my advisor, Dr. Valerie Youstaf, who, from the first of several proposals, never realized she had signed on for a four year odyssey. Her direction and support, especially during this year, were truly appreciated.

Meredith Montrichard

It would be difficult to overstate my gratitude to Dr. George Legall; his contribution to the statistical analysis of this paper was invaluable. I am also indebted to Mr. René Gabriel, director of the ESL program at Caribbean Union College, and to members of the Faculty of Humanities, and groups of students after a 3 week period of instruction. The overall results, and relationships of near Significance suggest that exposure to conceptual metaphor can facilitate the recall and comprehension of phrasal verbs.

Finally, I wish to acknowledge my friends Erisel, Grace, and Keisha for their encouragement, and thank my parents, Brenda and Nello Montrichard, and members of my family for their understanding, faith, and unfailing support.

Keywords: Meredith Montrichard; Phrasal Verbs; Conceptual Metaphor; Orientational Metaphor.
