

It's much more than pan and mas'

ACCORDING to the Water and Sewerage Authority, less water is used during Carnival than during normal times.

Here, one member of the Authority's sponsored Silvertones (Picture left) gives an ingenious method of water conservation: "Doh Bade".

Carnival isn't sweet pan and nice mas' only. It's ingenuity, novelty and spectacle.

FAVOURITES

This year, WASA Silvertones didn't have enough of them; they failed to get into tonight's Panorama finals.

Solo Harmonites (top right), however, did — and a performance that makes them the hottest favourites for the premier pan title in recent times.

Shell Invaders (right) with an entirely different sound, also made it; some even thought they had it made — until Harmonites trooped onto last Friday's stage.
