

COCOA PALMS, TRINIDAD

NORTH GERMAN LLOYD

PANAMA CANAL—WEST INDIES CRUISE
ON BOARD S. S. GROSSER KURFUERST

New York City, March 10, 1913

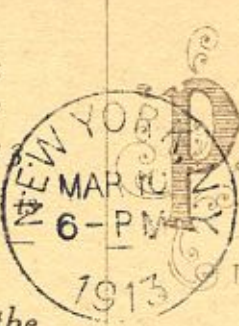

The S. S. "Grosser Kurfuerst"
now at Port of Spain, Trinidad
"a land of wonders".

It is the hunting ground of the
naturalist and according to a local
historian, there are:

"Lakes of pitch; streams of tar;
oysters growing on trees; an animal
resembling a fish that produces its
young alive; crabs that climb and
live and feed in fruit trees; another
fish that entertains with a concert and
lastly, one that is clad in a complete
suit of armor".

It is among the above that the ex-
cursionists are enjoying themselves
to-day. The weather is excellent.

OELRICHS & CO.,
General Agents.
