

City of Port-of-Spain fringed by Poui Trees 11 March

Dear John. - The sad news is that I am here on my own because Boya caught flu just before our departing day. I hear by phone that she is now much improved. I rang the Hawks who were kind enough to invite me over & another friend has invited me for tomorrow night. You will be just in time to congratulate them on their 40<sup>th</sup> wedding anniversary if you write now & Francesca is landing a plane 3 hrs a week show on T.V. here. Kindest wishes, Loy.
