

Habitat for Humanity helps Barbuda

TENISHA SYLVESTER

HABITAT for Humanity **UWI** Campus Chapter, in conjunction with **UWI's** Mathematics Society, Biology Society, Geography Club and Piarco **UWI** Rotaract, has launched Hurricane Irma Aid in response to the devastating effects of the hur-

ricane on Barbuda.

Sarika Bhageratty, president of the chapter, said, "Hurricane Irma was such a big disaster on the affected Caribbean counterparts that we, the students of **UWI** decided to come forward to assist." Launched on September 11, the aid drive is expected to last two weeks and is ask-

ing for non-perishable items such as clothing, food, personal hygiene products, school supplies and bedsheets.

"We are hoping to reach a large demographic, as this is a collaborative effort. I am both happy and humbled by how many clubs within **UWI** want to assist us."
