J-125 La Casa del Alfeñique Puebla, Puebla, México.

Colonial Residence now a Museum.

I received your letter of Dec 21st safely on my arrival in Belize after 4 days ago. Thanks for your good wishes. It's very quiet here in Belize, though some of the churches had a parade this morning with a band at the head & various religious banners & so forth. But the day has been fine reward after a rather cold spell with rain over the past few days. I leave for Merida in Mexico on Thursday before then I fly to Jamaica next Sunday. I have fixed up for an island cruise from there to Trinidad, calling at a number of the W. Indian islands on the way & I expect to be in Trinidad before the end of January. From there I plunge into S. America going on to S. Africa by boat from Rio de Janeiro about April & getting back to England by June or July. My best wishes for 1968.
