## TASPO Makes Hit In Paris

TASPO has made a great hit in Paris, where it is providing the entertainment for three weeks at the Cafe Medrano, popular Paris night spot. A report from the French Press, after one of these appearances said: "The Trinidad All Steel Percussion Orchestra is no ordinary orchestra. The only instruments used by the native Trinidad orchestra members are gasolins and oil drums, and the sticks with which they produce so pure, well harmonised notes. The rhythm of this orchestra is generally that of the rumba and samba."—(Central Press photo).
