	5.2.1 Maintenance Resources	11
	5.2.2 Maintenance Programme	14
	5.2.3 Management of Operations	15
	<p>Because of inadequate maintenance, industry in many under-developed countries such as Trinidad, suffers from an unduly high rate of depletion of capital assets and a chronic waste of production capacity which even economically stronger countries could hardly afford.</p>	
	<p>In this report, the maintenance operations of the fleet of vehicles and equipment owned and operated by the Ministry of Works Maintenance and Drainage will be looked at and through a systematic method, a maintenance plan for a selected class of units will be developed. This plan, when implemented, will be of great importance in improving the efficiency of the maintenance operations of the Ministry.</p>	
	PRELIMINARY ANALYSIS OF FLEET OF VEHICLES AND EQUIPMENT	27
6.	SELECTION OF CATEGORY OF UNIT TO TARGET DEVELOPMENT OF MAINTENANCE PLAN	35
9.	DEVELOPMENT OF A MAINTENANCE PLAN FOR A FLEET OF DUMP TRUCKS	36
	9.1 Definition of Availability	36
	9.2 The Existing Maintenance System	37
	9.3 Times Available for Maintenance	39
